Welcome to AHC

- AHC is a full service hair replacement center specializing all types of hair loss.
- Our staff members are committed to assisting you with all your hair care needs.
- Our licensed cosmetologist have trained extensivley in the hair replacement industry for the past 15 years.

Our goal is for you to live your hair!

What to expect

As you proceed with your first treatment you can expect your hair to start shedding in about 1-2 weeks. You may experience that your scalp will become sore, tight, hot and itchy, or your hair may feel dry, brittle, coarse and unmanageable. To help ease this discomfort try a scalp massage or wrap a cool towel around your head. Do not to over itch/ simulate/ irritate your scalp as this can cause more discomfort.

AHC is here to help you if needed in the removal of your own hair. Once the hair has shed and or been removed you will need to care for your scalp. Use a moisturizing cleanser in the shower and moisturizing lotion after to keep scalp soft and healthy. Be sure to use SPF 25 or higher to protect the skin and cover your scalp when in direct sunlight.
